

Exhibition in Storfors Old Fire House

The house was built in 1897 by Storfors Works. The tower was used to dry fire hoses and in the top you find the old clock for fire alarm. The house was used as the local fire station until 1974. In 2001 it was choosed to the best building in Storfors ever built.

Värmlands Fire Historical Club encourage collecting, saving and taking care of old equipment The Club shows equipment for firefighting and fire prevention. Most of the objects come from ten county and are exposed in eleven themes;
